## THE DUTY OF EVERY CIVILIZATION IS TO GUARANTEE EVERY CHILD'S RIGHT TO A FUTURE.

In an unknown time and place, a young boy escapes war with nothing but a dream and a violin case. Along his journey, he meets the beautiful Naila and a group of travelers, and the music in the young boy's heart guides them to cross deserts and seas, find their paths on the other side of the border, and overcome prejudice.

But the Tikis are not only after glory-- becoming Wyatt Whale's new apprentices is also their only chance to access the newest eco-technology and find a way to prevent their island from sinking into the ocean. Failure isn't an option: the fate of the Tiki's home relies on their victory!
